

New Researcher Program

Year	Winner	Department	Project
2018-19	Tania Aguila-Way	Department of English	Saving Seeds, Decolonizing the Commons: Seed Ecology and Setter Conservationism in Canadian Literature
	Monica Alexander	Department of Statistical Sciences	Using Facebook data to measure and understand migration patterns in Canada
	Melissa Anderson	Department of Earth Sciences	Geodynamic controls of hydrothermal ore formation in the Tonga-Kermadec subduction zone: Towards regional exploration models for inactive deposits on the seafloor
	Noel Anderson	UTM: Political Science	Wars Without End: Competitive Intervention and its Consequences for Internal Conflict
	Barend Beekhuizen	UTM: Department of Language Studies	Word Meaning in Action
	Amy Bilton	Department of Mechanical and Industrial Engineering	Development of a Computational Fluid Dynamics-Based Dissolved Oxygen Model for Aquaculture Ponds
	Jennifer Brant	Department of Curriculum Teaching and Learning	Indigenous Student Experiences Post TRC: Indigenous Requirement Courses in Teacher Education
	Jennifer Brooks	Dalla Lana School of Public Health	Evaluation of effectiveness of risk prediction models used in the High Risk Ontario Breast Screening Program
	Michelle Cameron	Department of Anthropology	Biocultural influences on skeletal growth and development
	Laura Cirelli	UTSC: Department of Sociology	Infant musical engagement in the home and community
	Aaron Conway	Faculty of Nursing	Pilot randomized controlled trial of nasal high flow oxygen during procedural sedation and analgesia
	Brendan de Kenessey	Department of Philosophy	Relationships and Moral Constraints
	Fedor Dokshin	Department of Sociology	Going Solar: The Social Determinants of Residential Solar Panel Diffusion
	Maria Drout	Department of Astronomy and Astrophysics	Multimessenger Gravitational-Wave Astrophysics: From Single Objects to Population Studies
	Emine Fidan Elcioglu	UTSC: Department of Sociology	The Political Effects of Takin in Strangers: An Interview-Based Study of the Motivations, Experiences, and Worldviews of Private Sponsors in Canada
	Murat A. Erdogan	Department of Computer Science	Non-convex Optimization for Machine Learning: Theory and Methods
Catherine Evans	Centre for Criminology & Sociolegal Studies	Fire and Powder: Arson and Accident in the British Empire	
Cindy Ewing	Department of History	Postcolonial Solidarities: Documenting the International Relations of the Global South	
Jerry Flores	UTM: Department of Sociology	Disappearing in the City: An Urban Ethnography of Missing and Murdered Indigenous Women and Men	

Year	Winner	Department	Project
2018-19	Ethan Fosse	UTSC: Department of Sociology	The Consequences of Downward Social Mobility in the United States and Canada
	Michael Garton	Institute of Biomaterials and Biomedical Engineering	A strategy for expanding cell capabilities to sense their environment
	Marzyeh Ghassemi	Department of Computer Science	Evaluating the Impact of Recommendations on Clinical Practice
	Eliana Gonzales-Vigil	UTSC: Department of Biological Sciences	Uncovering a silent player: the role of the microbiome in plant-insect interactions
	Tovi Grossman	Department of Computer Science	Interactive Guidance for Large Scale and Collaborative Fabrication
	Quinn Gundy	Faculty of Nursing	“Conflict of interest as ethical shorthand: Articulating and managing the range of “non-financial” interests and their impact on biomedical research”
	Sarah Gutsche-Miller	Faculty of Music	Ballet at the Opéra-Comique: Tradition, Modernism, and Nationalism
	Adam Hammond	Department of English	Project Dialogism: Toward a Computational History of Vocal Diversity in English-Language Fiction
	Rosalind Hampton	Department of Social Justice Education	Plotting Black Studies in Canada: Montreal and Toronto
	Thomas Hurd	Department of Molecular Genetics	Uncovering how the female germline eliminates deleterious mitochondrial DNA mutations
	Hyun Lee	Department of Biochemistry	Uncovering how cells control against deleterious protein aggregation under stress
	Baohua Liu	UTM: Department of Biology	The Circuit Mechanisms Underlying the Cortical Control of Innate Reflexes
	Fan Long	Department of Computer Science	Program Analysis and Testing for Smart Contracts
	Semechah K.Y. Lui	Department of Chemical and Physical Sciences	A holistic approach to understanding the physics of induced earthquakes
	Mary Elizabeth Luka	UTSC: Department of Arts, Culture & Media	Understanding how arts and creative networks operate as pivots for social innovation in Canada
	Charles Martineau	UTSC: Department of Management	Hacking Information into Markets
	Maryam Mehri Dehnavi	Department of Computer Science	Automating Matrix Code Optimization for Performance and Portability
	Péter Molnár	UTSC: Department of Biological Sciences	Land use change impacts on parasite transmission networks
Luther James Obrock	UTM: Department of Historical Studies	Islamic Poetry in Sanskrit Verse: A Bilingual Edition and Study of Śrīvara's Kathākautuka	
David Price	UTM: Department of Economics	Layoffs, job changes, and long-term earning loss	

Year	Winner	Department	Project
2018-19	Fabio Pusateri	Department of Mathematics	Mathematical Problems in Fluid Dynamics
	Olli Samuli Saarela	Dalla Lana School of Public Health	Casual Mediation Analysis Methods for Evaluating Health Care Provider Performance
	Tahseen Shams	Department of Sociology	Effects of Intra-Ethnic Dynamics on Muslim Integration in Canada
	Arul Shankar	Department of Mathematics	Arithmetic Statistics and Analytic Number Theory
	Jennifer Stellar	UTM: Department of Psychology	Responding to the Transgressions of Close Others
	Shauna Sweeney	Women and Gender Studies Institute	A Free Enterprise: Market Women, Insurgent Economies, and the Making of Caribbean Freedom, 1655-1865
	Diana Valencia	UTSC: Department of Physical & Environmental Science	Understanding Planetary Habitability
	Stanislav Volgushev	UTM: Department of Mathematical and Computational Sciences	Towards fast and reliable inference for large scale data sets
	Joseph Williams	Department of Computer Science	Continually Improving User Interfaces
	Katherine Williams	Department of English	Kingly Fair: Early Modern Disability and the Performance of Sovereignty
	Mark Wilson	Department of Chemistry	All-in-one excitonic upconversion nanoparticles for low-intensity, background-free biomedical imaging
	Jia Xue	Faculty of Social Work	Information Communication Technologies and Attitudes towards Sexual Assault: An Internet-based Survey of U.S. and Canadian College Students
Marius Zoican	UTM: Department of Management	Digital Finance: Initial Coin Offerings and Token Market Structure	
2017-18	Matthew Adams	Department of Geography	STUCAN – A Spatially-transferable and Temporally-resolved Urban Corridor Air and Noise pollution model- How to locate air pollution monitors in an urban environment, and baseline air and noise pollution data for the Hurontario LRT line
	Syed Ishtiaque Ahmed	Department of Computer Science	Computing for Voice: Advancing Technology to Reduce Marginalization
	Mitchell Akiyama	Department of Visual Studies	The Digital Aby Warburg: Analyzing Visual Culture in the Age of Artificial Intelligence
	David Barnett	Department of Philosophy	Intellectual Autonomy and the First-Person Perspective
	Johnathan P. Beauchamp	Department of Economics	Nature via Nurture: Gene-Environment Interactions and Economic Outcomes

Year	Winner	Department	Project
2017-18	Stephanie Begun	Factor-Inwentash Faculty of Social Work	Pregnancy and Family Planning among Young Women Experiencing Homelessness in Canada: Exploring Youths' Attitudes, Experiences, and Needs for Reproductive and Sexual Health Information Services
	Eliot Britton	Faculty of Music	Computer Assisted Analysis of Rhythmic Electronic Music
	Claire Celerier	Rotman School of Management	Endogenous Payoff Design and Behavioral Biases: Evidence from Randomized Investment Experiments
	T.L. Cowan	UTSC: Department of Arts, Culture & Media	Cross-Platform Cabaret Methods: Digital Infrastructures for Trans-Feminist and Queer Performance and Archive Practices
	Derek Denis	UTM: Department of Language Studies	New-dialect formation in a Toronto neighbourhood of first arrival
	Robert Diaz	Women and Gender Studies Institute	"Diasporic Desires: LGBTQ Filipinos and the Promise of Sexual Rights"
	Laura Doering	Rotman School of Management	Development Brokers: How Relationships Influence Economic Growth
	Katherine Duncan	Department of Psychology	How do cholinergic brain states impact memory abilities as we age?
	David Duvenaud	Department of Computer Science	Reconstructing and Predicting Cancer Evolution
	Maryam Faiz	Department of Surgery	Astrocyte heterogeneity in the injured brain
	Sanja Fidler	UTM: Department of Mathematical and Computational Sciences	Interactive Large-Scale Annotation of Image Datasets
	Amy Finn	Department of Psychology	What children remember and why: How attention can predict developmental shifts in the nature of memory
	Daniel Thomas Goetz	UTM: Department of Management	The Role of Therapist Decisions in Access to Mental Health Care
	Christina Guzzo	UTSC: Department of Biological Sciences	Human Immune Proteins can be Incorporated into the External HIV Virus Coat and Alter Virus Infection
	Fatima Hamlaoui	Department of French	Deepening our understanding of African French varieties through a corpus study of the phonetics and phonology of Bàsàa-Cameroonian French
Alex Hanna	UTM: Institute of Communication, Information and Technology	Racialized Movements, Protest Diffusion, and Digital Media	
Andreas Hilfinger	UTM: Department of Chemical and Physical Sciences	Translating general theorems for stochastic processes into novel analysis tools for single-cell fluctuation data	
William Christopher Johnson	Women and Gender Studies Institute	Revolutionary Pan-Africanism at the Grassroots: Transnational Migration, Black Feminism, and Britain's Black Liberation Front	

Year	Winner	Department	Project
2017-18	Vincent Kuuire	UTM: Department of Geography	Exploring the transnationalism-integration nexus: Understanding the relationship between integration and origin country social and economic ties
	Marco Magalhaes	Faculty of Dentistry	Prospective analysis of the malignant transformation of oral dysplasias using a new high resolution invasion test (HRI)
	Fadi Masoud	Faculty of Architecture, Landscape & Design	Coding Flux: A Platform for Climate Based Adaption Urban Codes
	Rijuta Mehta	Department of English	The Anticolonial Snapshot: South Asian Disruptions
	Andrew Miles	UTM: Department of Sociology	Living Right, Feeling Good: The Effects of Moral Action on Positive Emotion
	Michael Miller	Department of Philosophy	Representing Fundamental Particles: Inconsistency and Empirical Success
	Monika Molnar	Department of Speech-Language Pathology	Neural and physiological correlates of monolingual and bilingual language processing during the first two years of life
	Julie Moreau	Department of Political Science	Happily Ever After? The Impact of Same-sex Marriage on LGBT Movements in Latin America
	Nada Moumtaz	Department for the Study of Religion	When Urban Regulations and Institutions Travel: Beirut, Islamic Law, and the Modern State
	Sarah Murray	Department of Classics	The Archaeology of State Failure: Ancient Aegean Society and Economy in 12 th Century BCE Attica (Greece)
	Gennady Pekhimenko	UTSC: Department of Computer Science, Mathematics and Statistics	Exploiting Hardware Heterogeneity for Efficient Execution of Emerging Applications
	Kristin Plys	UTM: Department of Sociology	Brewing Resistance: Coffee House as a Site of Social Protest Against Postcolonial Authoritarianism in India and Pakistan
	V.K. Preston	Centre for Drama, Theatre, and Performance Studies	The Archival: Diversifying Theatre, Dance, and Performance Historiography
	Sarah Rauscher	UTM: Department of Chemical and Physical Sciences	Elucidating the Structure and Dynamics of Disordered Proteins Underlying Human Health and Disease
	Aaron Reinke	Department of Molecular Genetics	Understanding microsporidia host-pathogen interactions and evolution using a tractable animal system
	Ho Sung Rhee	UTM: Department of Biology	Motor Neuron Regulatory Genes and Mechanisms of Their Action
	Blake Richards	USTC: Department of Biological Sciences	Testing the benefits of forgetting: An interdisciplinary investigation on adaptive versus maladaptive forgetting
Adriana Robertson	Faculty of Law	The Trouble with Securities Indices: An Empirical Investigation into Index Constituent Selection	
Njal Rollinson	Department of Ecology & Evolutionary Biology	Establishing and Growing Long-term Monitoring of Spotted Salamanders	
Hannes Rost	Donnelly Centre	Longitudinal personalized metabolomics profiling using SWATH-MS mass spectrometry	

Year	Winner	Department	Project
2017-18	Sushant Sachdeva	UTM: Department of Mathematical & Computational Sciences	Design of Fast Flow Algorithms using Continuous Methods
	David Samson	UTM: Department of Anthropology	What is human sleep? A global, comparative investigation of sleep in traditional societies
	Lauren Schroeder	UTM: Department of Anthropology	The hybrid phenotype of the coywolf; a new model for hominin evolution
	Adriano Senatore	UTM: Department of Biology	Systems level analysis of fast electrochemical and slow neuromodulatory neural cell-cell signaling in the basal invertebrate, <i>Trichoplax adhaerens</i>
	Nisarg Shah	Department of Computer Science	Using Economic Principles to Design Algorithms for Social Choice
	Adam Stinchcombe	Department of Mathematics	An In-Silico Model of the Retina
	Ruby May Sullan	UTSC: Department of Physical and Environmental Sciences	Tackling Microbial Biofilms one molecule and one cell at a time: dissecting the forces that keep biofilms together
	Qiang Sun	UTSC: Department of Computer and Mathematical Sciences	Nonconvex Statistical Optimization for Big Data
	Gail Super	UTM: Department of Sociology	Precarious penalty on the periphery: crime prevention in South Africa's informal settlements
	Shruta Swarup	Department of Philosophy	Democratic Rights and the Duty to Obey
	Daphne Tan	Faculty of Music	Music Theory and the Humanities in Mid-Century America: The Case of Viktor Zuckerkandl
	Tod Thiele	UTSC: Department of Biological Sciences	Validation of a novel screening platform for the discovery of neuroactive compounds
	Tamara Walker	Department of History	Black Channels of the Pacific: African Itinerants, Intermediaries, and their Routes in the Age of Sail
	Rebecca Woods	The Institute for the History of Philosophy of Science and Technology	Empire of Cold: Science, Nature, and the Economy of Cold
	Haley Wyatt	Department of Biochemistry	How do macromolecular nuclease complexes safeguard genome integrity?
	Yang Xu	Department of Computer Science	Large-scale learning of non-literal expressions in natural language
Alberto Zambendetti	Department of Italian Studies	Situating Francesco Pasinetti: Theory and Practice of Italy's First Film Scholar	
Yu Zou	Department of Materials Science and Engineering	Accelerating discovery and manufacturing a novel metallic materials: a new methodology	

Year	Winner	Department	Project
2016-17	Anabela Alves dos Santos Rato	Department of Spanish and Portuguese	The role of cross-language phonetic similarity and articulatory difficulty in L2 speech learning
	Sandro Ambuehl	UTSC: Department of Management	Incentives for complex transactions – Bridging Economics and Ethics
	Stefanos Aretakis	USTC: Department of Computer & Mathematical Sciences	Mathematical Problems in General Relativity
	Rachelle Ashcroft	Factor-Inwentash Faculty of Social Work	Patient Perspectives of the Incentives and Disincentives for Quality Mental Health Care in Ontario Family Health Teams
	Andrew Beharry	UTM: Department of Chemical and Physical Sciences	Small Molecular Probes for Fluorescence-Guided Photodynamic Therapy
	Susana Bejar	Department of Linguistics	The Syntax of Georgian Pseudoclefts
	Arthur Blouin	Department of Economics	The Dynamics of Diversity: Evidence from Ancestral Migration
	Erin Bobicki	Department of Materials Science & Engineering	Reducing Water and Energy Use in Mineral Processing
	Irene Boeckmann	Department of Sociology	Fatherhood and Men's Earnings from a Cross-National Perspective
	Robert Bonin	Leslie Dan Faculty of Pharmacy	Elucidating molecular mechanisms of reconsolidation to reverse pathological pain
	Katharina Braeutigam	UTM: Department of Biology	The relationship between genome, epigenome and plant performance in trees
	Elisa Brilli	Department of Italian Studies	Dante among Augustine's Readers. Humankind, Earthly City and Theology of History
	Hilary Kathryn Brown	UTSC: Department of Anthropology	Maternal Diabetes and Perinatal Mental Illness: A Population-Based Study
	Karina Carneiro	Faculty of Dentistry	DNA nanostructures as scaffolds for hard tissue regeneration
	Murat Celik	Department of Economics	The Effects of Misallocation of Resources on Economic Growth, Innovation, and Inequality
	Andrea Charise	UTSC: Department of Anthropology	Novel Remedies: Literature, Health, and the Creative Recovery of the Humanities
	Joseph Clarke	Department of the History of Art	Open Office Design and the Acoustics of the Knowledge Economy, 1960-1980
	Thorn Dancer	Department of English	The Case for Decency: Aesthetics and Politics in a Neoliberal Age
	Jacopo De Simoi	UTM: Department of Mathematical and Computational Sciences	Fast-Slow dynamical systems
	Oliver Dessaint	Rotman School of Management	The determinants of M&A decisions and their welfare implications
Eric David Diller	Department of Mechanical and Industrial Engineering	Minimally-Invasive Surgery through Miniaturized Magnetic Surgical Tools	

Year	Winner	Department	Project
2016-17	Mike Ekers	Department of Human Geography	Financializing Forests in British Columbia: Land, Governance and the Ecological Fix
	Teddy Erclik	UTM: Department of Biology	Spatial and temporal patterning of neural stem cells in the developing fruit fly brain
	Tobin Filleter	Department of Mechanical and Industrial Engineering	Micro-mechanical studies of MoS2 dry lubricated contacts for space applications
	Brett Quaid Ford	UTSC: Department of Psychology	Can emotion regulation counteract the harmful effects of stress exposure? The role of reappraisal in protecting individual's emotional and physiological outcomes
	Andrew Franklin-Hall	Department of Philosophy	What We Owe to Children
	Diana Xuan Fu	UTSC: Department of Political Science	Reaching for Half the Sky: Explaining China's New Wave Feminist Movement
	Keisuke Fukuda	UTM: Department of Psychology	EEG-based memory monitoring and intervention for older adults
	Roger Grosse	Department of Computer Science	Scalable and flexible Bayesian Learning
	Chloe Hamza	OISE: Department of Applied Psychology and Human Development	Emotional Cascades and Nonsuicidal Self-Injury among University Students: How do we Disrupt the Cycle?
	Alec Jacobson	Department of Computer Science	Robust Geometry Processing for Big Dirty Data
	Jonathan Kelly	Institute for Aerospace Studies	Seeing the Light: Advancing Visual Sensing for Robust and Reliable Robot Navigation and Manipulation
	Mariana Khapko	UTSC: Department of Management	Markets of Tomorrow: Blockchain Trade Settlement and Liquidity
	Daehyun Kim	Rotman School of Management	CEO Stock Performance-Based Compensation Manipulation through Timing of News Disclosure
	SeungJung Kim	Department of Art History	Toward a Phenomenology of Time in the Visual Culture of Ancient Greece
	Bryn King	Factor-Inwentash Faculty of Social Work	Developmental Disruptions: Adolescent Involvement in the Child Welfare System in Ontario
	Dehan Kong	UTM: Department of Mathematical and Computational Sciences	Novel Statistical Models for Imaging Genetics Data
David Levin	Department of Computer Science	Big Data for Fast and Accurate Numerical Simulation of Mechanical Structures	
Marie-Paule Lory	Department of Language Studies	Awareness of Language Program: adopting a plurilingual paradigm to engage students to learn French as a second language in English elementary schools in Ontario	
Azarakhsh Malekian	Rotman School of Management	Partial Cooperation in Societies and Local Grim Trigger Strategies	

Year	Winner	Department	Project
2016-17	Pamela Milagros Medina Quispe	UTSC: Department of Management	Exploring Barriers of Small and Medium-sized Enterprises (SMEs) to International Market Access through E-commerce
	Massieh Moayedí	Faculty of Dentistry	Elucidating the role of the hippocampus in pain perception
	Arthur Mortha	Department of Immunology	Development of anaerobic culture methods for the ex vivo study of intestinal protozoa
	David Bartzoon Nieborg	UTSC: Department of Arts, Culture and Media	App Studies: Exploring the Political Economy of Mobile Media Platforms
	Aleksander Nikolov	Department of Computer Science	Geometric Methods in Discrepancy and Privacy
	Akwasi Owusu-Bempah	UTM: Department of Sociology	The Representation of Black Criminality and Street Gangs in Toronto: 2000-2015
	Stefan Renckens	UTSC: Department of Political Science	Transnational Private Sustainability Governance as Interest Community
	Emily Seto	Institute of Health Policy, Management & Evaluation	Telemonitoring in an Integrated Chronic Disease Management Clinic: A New Model of Care for Complex Patients with Multiple Chronic Conditions
	Richard Stacey	Faculty of Law	The Privatization of Honour: Delegating to Industry the Crown's duty to consult Aboriginal peoples
	Guillaume Thomas	Department of Linguistics	Building a Mbyá Treebank
	Xu Tian	UTM: Department of Economics	The Macroeconomic Implication of Financial Frictions
	Giulio Tiozzo	UTSC: Department of Computer and Mathematical Sciences	Ergodic theory of low-dimensional dynamical systems
	Ryan Webb	Rotman School of Management	Does Context-Dependent Choice Arise from the Principles of Neural Computation?
	Liye Xie	UTM: Department of Anthropology	Labour Mobilization for Early Bronze-Age Urban Construction at Erlitou, China
	Edmund Young	Department of Mechanical & Industrial Engineering	Development of microfluidic airway-on-a-chip for studying lung epithelial and smooth muscle cell interactions
	Yurou Zhong	Department of East Asian Studies	Socialist Scripts and Scripting Socialism in the Early PRC
2015-16	Pat Akey	UTM: Department of Management	Policy Uncertainty, Firms, and Financial Markets
	Natalie Bau	UTM: Department of Economics	Affirmative Action and Student Effort
	Tyson Beach	Faculty of Kinesiology and Physical Education	Biomechanical analyses of single-leg squat variations – Implications for lower extremity injury risk assessments
	Christopher Becker	Faculty of Information	The sustainability debt of software design projects
	Laurie Bertram	Department of History	The Other Little House: Brothel, Culture, Race, and the Colonization of the Canadian Prairies. 1870-1910

Year	Winner	Department	Project
2015-16	Laura Brown	UTM: Department of Geography	Monitoring and Modelling Lake Ice in Canada
	Daphna Buchsbaum	Department of Psychology	What is unique about the human mind? Investigating the role of social information and physical knowledge in the origins of casual reasoning and problem solving
	Lydia Burke	OISE: Department of Curriculum, Teaching & Learning	Minority middle school student engagement in public science: A qualitative analysis of factors influencing participation
	Brett Caraway	UTM: Institute of Communications, Culture, Information & Technology	Connective Action in Social Movement Research
	Boris Chrubasik	UTM: Department of Historical Studies	Sanctuaries and Empires in the Eastern Mediterranean (400BCE-100CE)
	Andre Cire	UTSC: Department of Management	Decision Analytics for Home Healthcare
	Kristin Cleverly	Lawrence S. Bloomberg Faculty of Nursing	Transitions from child to adult mental health services: A qualitative study of youth experiences
	Peter Cziraki	Department of Economics	CEO Immobility
	Craig Dale	Lawrence S. Bloomberg Faculty of Nursing	Advancing patient-oriented outcomes in oral hygiene: Experiences and recommendations of critical care survivors
	Sebastian Dyrda	UTM: Department of Economics	Taxes, Regulations of Businesses an Evolution of Income Inequality in the US
	Alexander Ensminger	Department of Biochemistry	Leveraging an unexplored model to define intrinsic design specifications for CRISPR-Cas adaption
	Xing Fan	Centre for Drama, Theatre and Performance	New Politics of Classical Performance: China's National Theatre after the Cultural Revolution, 1976-2016
	Mohsen Ghafghazi	Department of Civil Engineering	Replicating River Deposition Environment for Investigating the Influence of Fabric on Mechanical Response of Alluvial Soils
	Melissa Gniadek	UTM: Department of English & Drama	Unsettled Spaces, Unsettled Stories: Temporalities of Settlement in Nineteenth-Century American Literature
	Andrey Goluboy	Rotman School of Management	The Efficiency of the Takeover Market
	Sidhartha Goyal	Department of Physics	Understanding heterogeneous populations: microbes to stem cells
	Nicolas Grisouard	Department of Physics	Bridging the Gap Between Wave Scattering Theory and Satellite Oceanography
	Jiaying Gu	UTM: Department of Economics	Heterogeneous Treatment Effect and Selective Instrumental Variable Regression
Sara Guilcher	Faculty of Pharmacy	Polypharmacy among Community-dwelling Persons with Spinal Cord Injury in Ontario: Optimizing Medication Management	
Jonathan Hall	Department of Economics	Is Uber a substitute or complement to public transit?	

Year	Winner	Department	Project
2015-16	Robert Haslhofer	UTSC: Department of Computer and Mathematical Science	Mean curvature flow and Willmore flow
	Jacob Hirsh	UTM: Department of Management	Increasing Employee Engagement by Making Work More Meaningful
	Mitchell Hoffman	Rotman School of Management	Bringing Economics to the Workplace: What do Managers Do?
	Cendri Hutcherson	UTSC: Department of Psychology	Tracking the dynamics of attention and inhibition during dietary self-control
	Brain Jacobson	Cinema Studies Institute	Film, Power, and Persuasion in the Era of Energy Uncertainty
	Peter Landry	UTM: Department of Management	Developing Neuroeconomic Theories of Decision-Making
	Yao Luo	Department of Economics	Competition and Pricing in the Canadian Wireless Market
	Julie MacArthur	UTM: Department of Historical Studies	Radical Cartographies: Mapping Sovereignty, Belonging, and Dissent in Eastern Africa, 1950-76
	Neda Maghbouleh	UTM: Department of Sociology	Civic Engagement in Toronto "Mothers' Groups"
	Donald Luke Mahler	Department of Ecology and Evolutionary Biology	Reconstructing a natural macroevolutionary experiment through phylogenetic study of a diverse tropical lizard clade
	Loren Martin	UTM: Department of Psychology	Understanding chronic pain-induced depression by linking stress, inhibition and behavioural changes
	Nicole Mideo	Department of Ecology and Evolutionary Biology	The importance of ecology for understanding and detecting the evolution of drug resistance
	Brent Miles	Centre for Medieval Studies	The literature of Biblical Kingship in Medieval Ireland: A Critical Edition of the Sermo ad Reges 'Semon to Kings' and the Teacusc Rgda Solam 'The Royal Teaching of Solomon'
	Daniel Moore	Faculty of Kinesiology & Physical Education	Novel methods to study protein metabolism in humans
	Cosmin Munteanu	UTM: Institute of Communications, Culture, Information and Technology	Improving the online safety of older Canadian adults: understanding and removing barriers to technology adoption and increased online participation
	Elise Paradis	Faculty of Pharmacy	The State of the Union: Mapping evolving professional stereotypes and clinical reasoning of pharmacy and medicine students in a time of regulatory upheaval
Keith Pardee	Faculty of Pharmacy	The Creation of Hardware Interfaces for Practical Applications of Cell-Free Synthetic Biology	
Brady Peters	John H. Daniels Faculty of Architecture, Landscape and Design	Designing Sound Scattering Surfaces	
Ludovic Rheault	Department of Political Science	Emotion and Policy-Making in the Canadian House of Commons	

Year	Winner	Department	Project
2015-16	Gonzalo Romero Yanez	Rotman School of Management	Simple Near-Optimal Policies for a Class of Subsidy Allocation Problems
	Sophie Rousseaux	Department of Chemistry	A Sustainable Strategy for the Direct Nucleophilic Substitution of Aliphatic Alcohols
	Sara Saljoughi	UTSC: Department of English	Burning Visions: The Counter-Cinema of the Iranian New Wave
	Daniel Santa Mina	Faculty of Kinesiology & Physical Education	Mixed-Modality Exercise for Men with Prostate Cancer on Active Surveillance
	Emily Satterthwaite	Faculty of Law	Optional Taxation: A Study of the GST/HST Small Supplier Election
	Robert Schertzer	UTSC: Department of Political Science	The Politics of National Identity and Diversity
	Joshua Barton Scott	UTM: Department of Historical Studies	Oceanic Associations: Liberalism and Hindu Reform Across the British Empire
	Mikko Taipale	Donnelly Centre for Cellular & Biomolecular Research	Systematic phenotyping of Mendelian disease alleles
	Julie Teichroeb	UTSC: Department of Anthropology	The Influence of Resource Quality and Usurpability on Verbvet Monkey Foraging Decisions
	András Tilcsik	Rotman School of Management	Whitened Résumés: Race and Self-Presentation in the Labor Market
	Miglena Todorova	OISE: Department of Social Justice Education	Violence Against University Women: Post-socialist and Transnational Perspectives
	Doug VanderLaan	UTM: Department of Psychology	Children's Appraisals of Gender Nonconformity: A Comparison of Reactions Based on Verbal Report vs. Facial Emotional Expression
	Marvel Vieta	OISE: Department of Leadership, Higher and Adult Education	Recalling the Past, Recuperating the Workplace: Collective Memory and Learning-in-Struggle at Work-Recuperated Enterprises
	Tamas Bence Viola	Department of Anthropology	Neanderthals and Denisovans in Central Asia
	Amar Vutha	Department of Physics	Development of efficient single-photon detectors in the infrared
	Audrey Walton	Department of English	New Wine in Old Skins: Early Medieval theory of Language and the Invention of Vernacular Literature
Rosalie Wang	Department of Occupational Science & Occupational Theory	Preparation for a multi-site randomized controlled trial for the AIRR robotic system in a program for upper limb therapy post-stroke	
Michael Widener	Department of Geography	Grocery Stores, Time Budgets, and Travel Costs: Accounting for Space and Time when Measuring	
Debra Wunch	Department of Physics	Ensuring Consistent Inter-City Greenhouse Gas Emissions Measurements in North America	

Year	Winner	Department	Project
2014-15	Gizele Azimi	Department of Chemical Engineering & Applied Chemistry	Development of an Advanced Electrolysis Technique for the Production of Pure Rare Earth Metals
	Teresa Bejan	UTM: Department of Political Science	Mere Civility: Tolerating Disagreement in Early Modern England and America
	Seth Bernard	Department of Classics	Building Republican Rome: A Social and Economic History of the City, 400-100 B.C.
	Dirk Bernhardt-Walther	Department of Psychology	Disentangling influences on the perception of real-world scenes in time and space
	Michelle Buckley	UTSC: Department of Human Geography	Migrants' experiences in the Thai construction sector: regulation, mobility and gender in Chiang Mai's building trades
	Kenzie Burchell	UTSC: Department of Arts, Culture and Media	The Social life of Information Abundance, Data-Mining and News Production
	David Burnes	Faculty of Social Work	Introducing Individualized Outcome Measurement in Elder Abuse Interventions
	Kinnor Chattopadhyay	Department of Materials Science and Engineering	Physical and Mathematical Modelling of Metallurgical Processes for Sustainable Design and Operation
	Christopher Clayton Childress	UTSC: Department of Sociology	Diversity, the Booker Prize, and Long Term Literary Acclaim
	Anna (Katyn) Chmielewski	OISE: Department of Leadership, Higher and Adult Education	Trends, Causes and Consequences of Inequality in Education Achievement: An International Comparison
	Heather Colquhoun	Department of Occupational and Occupation Therapy	Patient perspectives on the use of individualized outcome measures for determining and communicating improvements in health status
	Simon Cale Decker Darnell	Faculty of Kinesiology and Physical Education	Physical and Political Activity? Understanding Elite Athletes as Social and Political Activists
	Benjamin Dillenburger	Faculty of Architecture, Landscape & Design	Structural 3D Printing
	Michael Donnelly	Department of Political Science	Interest group rhetoric and public attitudes on immigration policy in seven democracies
	Jennifer Drake	Department of Civil Engineering	Physical and Hydraulic Parameters of Engineered Soils for Infiltration-Based Stormwater Technologies
	Alexander Edwards	Rotman School of Management	Taxes, Foreign Profits, and the International Market for Corporate Control
Steven Faber	UTSC: Department of Human Geography	Leveraging Open Data with High Performance Computing to Usher in a New Era of Multi-Modal Accessibility Metrics	
Matthew Feinberg	Rotman School of Management	The Moralization Process	
Marco Gonzalez-Navarro	UTSC: Department of Management	Subways and Urban Growth	

Year	Winner	Department	Project
2014-15	Amanda Goodman	Department for the Study of Religion	Buddhism from the Margins: Codicological Considerations in the Dating Assessment of Chinese and Tibetan Ritual Manuscripts from Late-Medieval Dunhuang
	Yosh Halberstam	Department of Economics	Overtones of Justice
	Michael N. Hasler	UTSC: Department of Management	Model Disagreement and the Term Structures of Risk Premia and Volatility
	Alex Hernandez	Department of English	Modernity and Affliction: The Making of British Bourgeois Tragedy
	Sarah Hughes	UTM: Department of Political Science	The Politics of Sustainable Cities: Case Studies of Institutional Change
	Yoel Inbar	UTSC: Department of Psychology	Moralized opposition to genetically modified food
	Beatrice Jauregui	Centre for Criminology & Sociolegal Studies	Security Agents as Citizen Subjects: Rights of Police in India and Beyond
	Peter Jurgec	Department of Linguistics	The Phonology of Slovenian
	Sonia Kang	UTM: Department of Management	Mental Health Stigma in the Workplace
	Ashish Khisti	Department of Electrical & Computer Engineering	Error Correction Coding for Multimedia Streaming
	Spike Lee	Rotman School of Management	How do people wipe the slate clean? Critical tests of an underlying mechanism and its cognitive and emotional consequences
	Igor Lehnherr	UTM: Department of Geography	Using Emerging Techniques to Investigate Climate Change Impacts on Mercury Cycling and Sources in the Canadian Arctic
	Nan Li	UTSC: Department of Management	Labour Skill Disclosure and Implications for Innovation and Growth
	Peter Loewen	UTM: Department of Political Science	The Local Parliament: voter preferences, local campaigns, and the parliamentary representation of voters
	Kristina S. McElheran	UTSC: Department of Management	Information Technology and Productivity in Firms
	Jeanne Miller	Department of Near and Middle East Civilizations	Abbasid Language Theory: Al-Jahiz's Semantics, and Theories of Insincere Rhetoric
Ismael Mourifie	Department of Economics	Evaluating Policy Effects under Endogeneity and Heterogeneity: Identification and Estimation	
Shivaji Mukherjee	UTM: Department of Political Science	State Motivations, Counterinsurgency and Civil War Duration: Explaining sub-national variation in anti-Maoist counterinsurgency in India	
Nasim Niknafs	Faculty of Music	The Impact of Collaborative Learning Project on Music Teachers' Use of Improvisation Activities	
Darius Ornston	Munk School of Global Affairs	Good Governance Gone Bad	

Year	Winner	Department	Project
2014-15	Matthew James Osborne	UTM: Department of Mangement	Designing Alerts to Help Consumers Avoid Overdrafts
	Serdar Ozkan	Department of Economics	Consumption and Portfolio Choice under Non-Gaussian Distribution of Earnings Changes and Asymmetric Mean Reversion
	Elodie Passeport	Department of Civil Engineering	Nature-inspired water treatment systems: from the Black Box to the Grey Box
	Kara Patterson	Department of Physical Therapy	It's not the load that breaks you down, it's how you carry it: an investigation of secondary musculoskeletal complications and temporal gait asymmetry after stroke
	David Pettinicchio	UTM: Department of Sociology	Pilot Project for a Résumé-Based Audit Study of Disability Employment Discrimination in Canada
	Sergey Plotnikov	Department of Cell and Systems Biology	Regulation of cell migration by physical signals in development and disease
	Trevor Porter	UTM: Department of Geography	The last 18 million years of climate change in continental Yukon and Alaska reconstructed from water isotope proxies
	John Ratcliffe	UTM: Department of Biology	Echoes and Light: Audiovisual Integration and Sensory Dominance in Bats
	Terry Robinson	UTM: Department of English & Drama	Impassioned Bodies: Acting and Physical Expression in Late Georgian-Era Literature and Culture
	Laura Christina Antonia Rosella	Dalla Lana School of Public Health	The role of vitamin D in mediating inflammation resulting from periodontal disease and its influence on insulin resistance
